Today, the Larry Gonzales Campaign announced they have received the endorsement of Empower Texans PAC, the state's leading fiscal conservative watchdog group. Larry Gonzales is a candidate for the Republican nomination for the Texas House of Representatives, District 52.

"I am honored by the support of Empower Texans PAC. We will continue to fight every day to provide the people of HD 52 with the strong, fiscally conservative representation in the Texas House they demand," Gonzales said.

With its endorsement, Empower Texans PAC becomes the latest in a line of conservative committees who are backing the Gonzales effort.

In fact, every major endorsement to date in the HD 52 GOP Primary race has gone to the Larry Gonzales Campaign, including endorsements by the Texas Association of Business BACPAC, the Texas Apartment Association PAC, and Young Conservatives of Texas.

In addition to these endorsements, the campaign has recently received ratings of "A" from the National Rifle Association and the Texas State Rifle Association.

"The overwhelming community support for our pro-jobs and pro-family campaign has led many critical conservative groups to unite behind our message. I am confident our campaign's conservative message of lower taxes, job growth, secure borders and limited government will carry the day on March 2, and return this seat to conservatives in November," Gonzales concluded.
