

Government needs to control spending.

Texas faces a potential budget shortage of nearly \$18 billion in 2011.

Republican Larry Gonzales' solution? Texas must tighten its belt, reevaluate and reprioritize spending, and adopt fiscally conservative principles when it comes to managing your tax dollars. And Larry will stand up to the liberals in Austin who believe the quick fix is to raise taxes to cover the shortfall and pay for new, unfunded federal mandates that will cost our state billions of dollars.

“As a business owner, father, and husband, I know what it means to operate under a budget and be fiscally conservative. **When finances are tight, you cut spending. State government should be no different.** I am *THE* endorsed Pro-Business candidate in the race for HD 52. I have earned the trust and endorsement of the Texas Association of Business PAC, the Texas Apartment Association PAC, Empower Texans PAC, and many more pro-business organizations and local business owners who share in my conservative philosophy. As your State Representative, I will fight to make certain Texas continues to advance fiscally conservative principles. I ask for your support and your vote on November 2nd. ”

What we can do in 2011 to control spending:

- Reevaluate and reprioritize state spending.
- Adopt a state spending limit of the sum of inflation-plus-population-growth, and require a 3/4th's vote of both the House and Senate and the Governor's signature to exceed this limit.
- Require the Rainy Day Fund only be used to balance the budget in times of revenue shortfalls.
- Excess tax dollars should be returned to the taxpayers through tax relief.
- Fight against unfunded mandates from the federal government.
- Dedicated funds should be used for their dedicated purposes, like gas taxes being spent on transportation.
